

# Revitalize

**My Filler's** "New Life to the Skin" widens its application horizons and creates **My Filler "Revitalize"**, the special line of products for Mesotherapy procedures.

**My Filler Revitalize** is a state-of-the-art range and complete portfolio of sterile topical cosmetics for professional use.

## My Filler Revitalize Hair

The hair loss at an early age creates discomfort and embarrassment for anyone, man or woman. **Revitalize Hair** acts in the prevention, re-densification, and stimulation of hair foliculos matrix responsible for the hair and eyebrow grow.

Moreover, **Revitalize Hair** acts at the dermal level on fibroblast situated next to the foliculos bulbs optimizing the development of the hair matrix.

### REVITALIZE HAIR

## Revitalize Hair

### REVITALIZE PROTOCOL

1. Clean, sterilise and applied anaesthetic topical cream to the chosen area to be treated.
2. After 30-60 minutes check if the area is numb. Remove topical cream with gauze and warm water. Exfoliate the area with a double cleanse, sterilise area and blot dry. Protect patient using appropriate means of covering like gauze, micropore tape and head-band.

3. Select chosen mesotherapy product and draw down 1ml into sterile container - two products can be mixed together to form a cocktail ½ ml each.

4. Apply the product at area being treated with a cotton bud or gauze.
5. Choose depth on Revitalize Pen to maximum depth for the areas following (1mm face and 2-2.5mm body) and begin to stamp the mesotherapy product into the skin covering all areas.
6. Apply another layer of mesotherapy product.

7. Reduce Revitalize pen depth to half previous chosen. Create rows vertical and horizontal to cover all the areas.
8. Apply another layer of mesotherapy and repeat using 's' sweeping motions with the Reduce Revitalize to cover all areas.
9. Apply the remaining mesotherapy product liberally all over with cotton bud or gauze.

10. Blot the area dry with a tissue.
11. Apply moisturiser and/or SPF cream.
